

## Lab Leg Panel

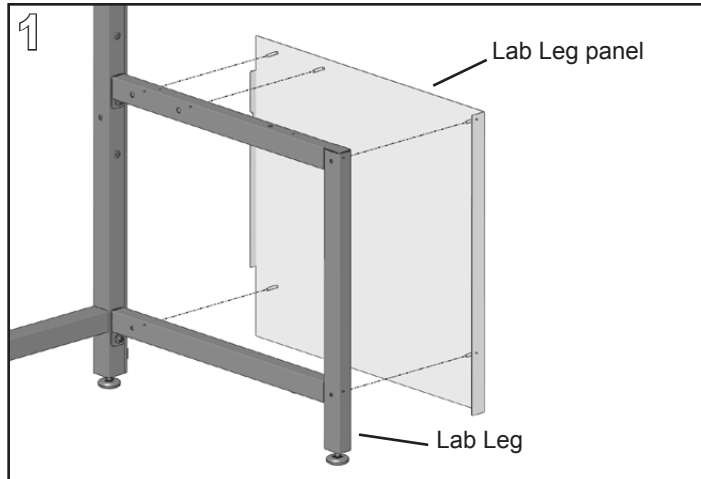

### Product Numbers

- LULPxyyy

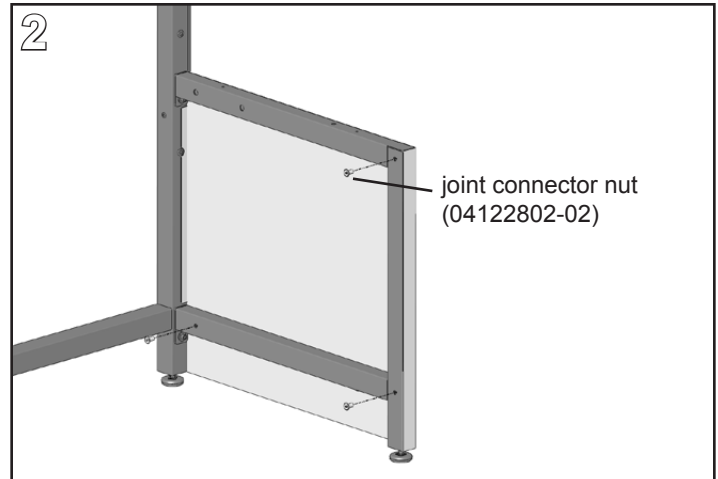

### Required Tools

- 5mm Allen Wrench

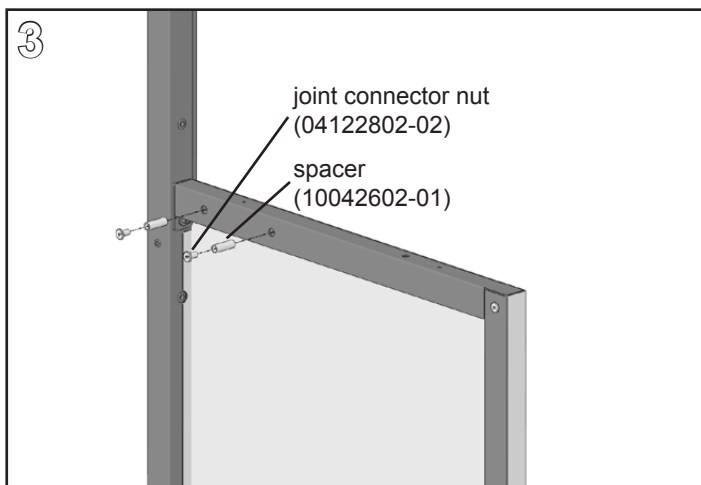

**Hardware Pack:** LULPHP (p/n 09061701-01)

Align the PEM studs in the Lab Leg Panel with the holes in the side of the Lab Leg.

Loosely fasten the panel to the leg with a joint connector nut through the bottom leg holes and the top front hole in the leg.

Insert a spacer into each of the holes in the top channel of the leg (24" deep has one hole, 30" and 36" depths have two holes). Fasten with a joint connector nut through each spacer/leg/bracket assembly. Tighten all nuts securely.
