Dimensions:

K-version

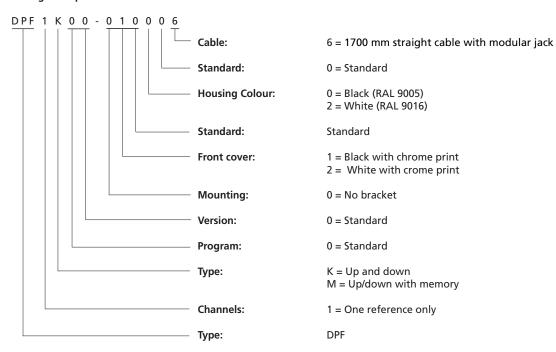

M-version

DPF Ordering example:

* Brackets must be ordered separately.

Mounting brackets: (delivered in bags with 100 pieces)

Article number	Description
914759	90° bracket, no distance to the tabletop
914757	90° bracket, with distance to the tabletop
914760	45° bracket, for a straight table front
914785	45° bracket, for angled table front

Operation of the DPF:

K-version:

Just activate either the up or down button for parallel drive and the system will drive until the button is released again or the system reaches end position.

M-version

The DPF is divided into parallel and memory drive. The two arrow buttons are used for parallel drive and the last four buttons for memory drive/storing memory.

 Λ = Parallel up

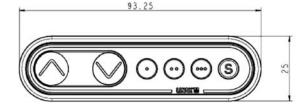

V = Parallel down

S = Store memory

= Memory 1

•• = Memory 2

••• = Memory 3

Parallel drive (∧V)

The arrow buttons start parallel drive. The function is only activated when holding the button down.

Store memory

- Press S button
- Within two seconds press one of the small buttons with dots and the position will be stored at this button.

Memory drive (small buttons with dots)

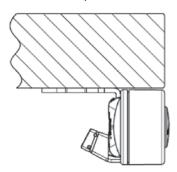

Press one of the memory buttons and the system will start driving to the pre-programed memory position. Keep the button pressed until the position is reached.

Mounting of the DPF:

The DPF must be mounted via a mounting bracket. The mounting bracket comes in 4 different versions depending on how the panel should be mounted. Below are some examples on ways to mount:

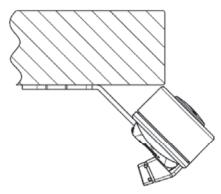

Example 1: (Article number 914759) The panel is mounted with a 90° bracket an

The panel is mounted with a 90° bracket and placed close to the tabletop.

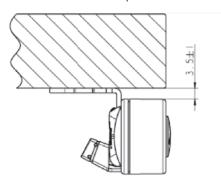

Example 3: (Article number 914760)

The panel is mounted with a 45° bracket and placed at the edge of the tabletop.

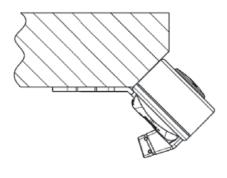

Example 2: (Article number: 914757)

The panel is mounted with a 90° bracket and place with a distance to the tabletop.

Example 4: (Article number 914785)

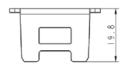

The panel is mounted with a 45° bracket and placed on a tabletop with angled front.

To mount the panel: Just click the panel into the bracket and it is fixed.
