

TASK LIGHT LAMINATE SHELF MOUNT BRACKET (WSMB)

CAUTION: Injury to persons and damages to the light and/or mounting surface may result if the light is pulled from the surface.

Always mount light only to a surface that is mechanically sound to reduce likelihood of such injury or damage.

The Corner Shelf Mount Brackets allows a 32" Task Light to be suspended beneath a 36" or 48" corner laminate shelf.

1. Lay Task Light with lens side down on a clean surface.

2. Position mounting plates on Task Light ends aligning all holes, making sure that top flange on plates are facing outboard. Fasten with six (6) #10-24 x 3/8" phillips screws provided with light using a #1 phillips driver.

3. Under installed corner laminate shelf, align bracket holes with predilled holes in shelf. Fasten with four (4) #10-12 x 3/4" phillips screw provided.

4. Route cord down along panel joint and secure to hanger frame with cord managers provided.

Surface Accessories Hardware Pack - SFAHP (#96011201)
Task Light w/ Parabolic Lens - TLPHP (#92050402)
Task Light w/ Batwing Lens - TLBHP (#88081606)
