Pencil Drawer

Product Numbers

• PD2015

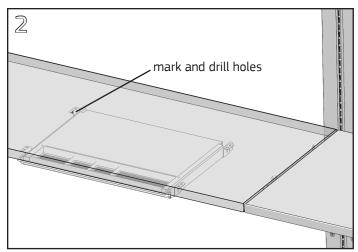

Hardware Pack: included in box

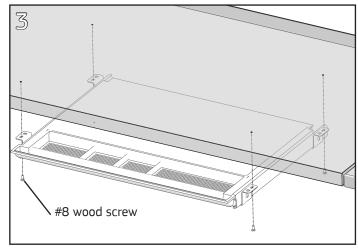

Attach the z-clips to the drawer slides with the small flange inboard in four locations with a #8-32 machine screw using a #2 Phillips screwdriver.

Required Tools

- 1/8" Drill Bit
- #2 Phillips Bit and/or Screwdriver
- Cordless Drill/Driver

Hold closed pencil drawer in desired location on the underside of the surface. Mark the location of the slot in the top of each z-clip. Drill ¼" deep pilot holes at these locations using a ⅓" drill bit and cordless driver.

Fasten the pencil drawer to the surface with (4) #8 wood screws using a #2 Phillips screwdriver/drill with bit.
