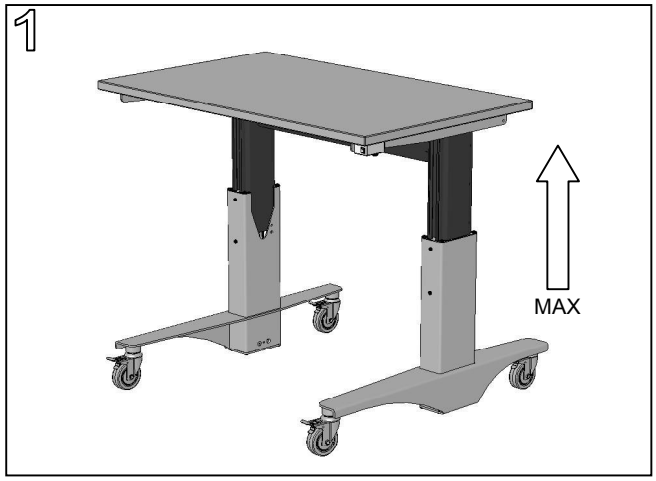
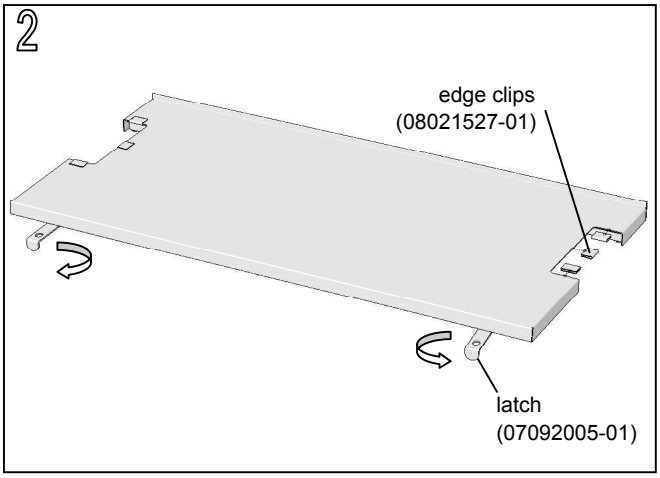
Lower Shelf, ErgoStat and Table Mount

Product Numbers
- LESxx
- LTSxx

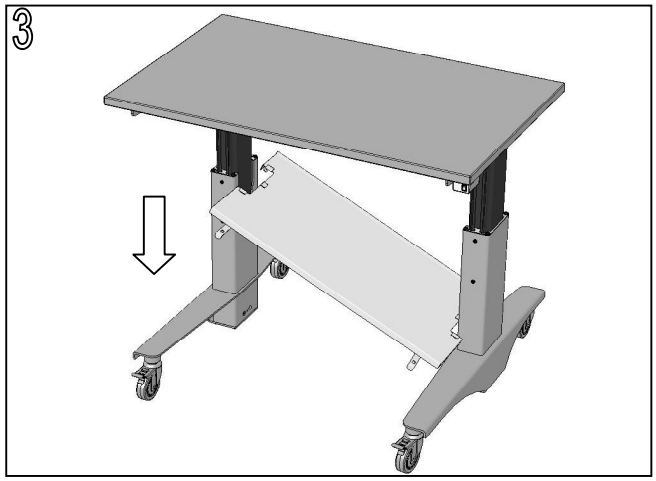
Required Tools
(none)



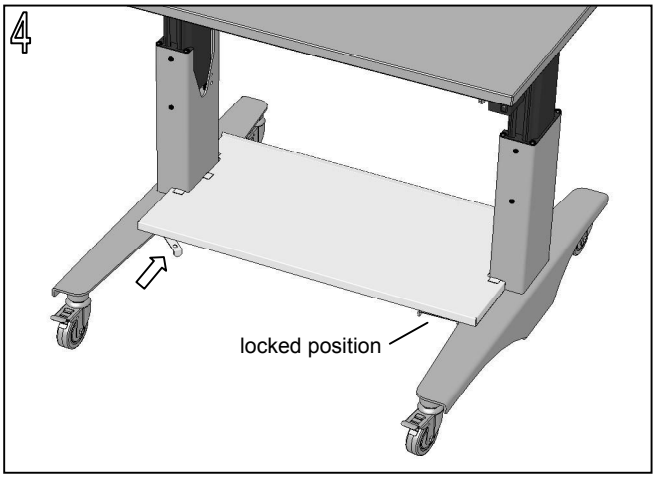
Set base at maximum height.



Install six (6) edge clips in notched area of shelf, three per side. Rotate latches forward by depressing button on underside of shelf and rotating outward to position shown.



Hold shelf at an angle and insert between table legs, centering notch on each side of shelf around leg. Rotate shelf down to flat position.



Rotate latches on underside of shelf inward to lock shelf to base.
